JEMKON PVT LTD

Shaping the future of construction chemicals

Epoxy / PU / EPU Flooring | PU Wall Coating | Waterproofing | Anti-Corrosive Coating

www.jemkon.com

Jemkon Pvt. Ltd., is driving innovation across the Architectural & Industrial Flooring market. As one of the leading manufacturers of construction chemical material, Jemkon is continuously striving to deliver quality products. Jemkon's greatest strength is its focussed R&D, highly skilled & experienced staff. Its all India reach with application teams in all major cities, enables client to get service in time.

Industrial & commercial Flooring

Concrete Repair Material

Dust Proof Sealers

Car Park Flooring

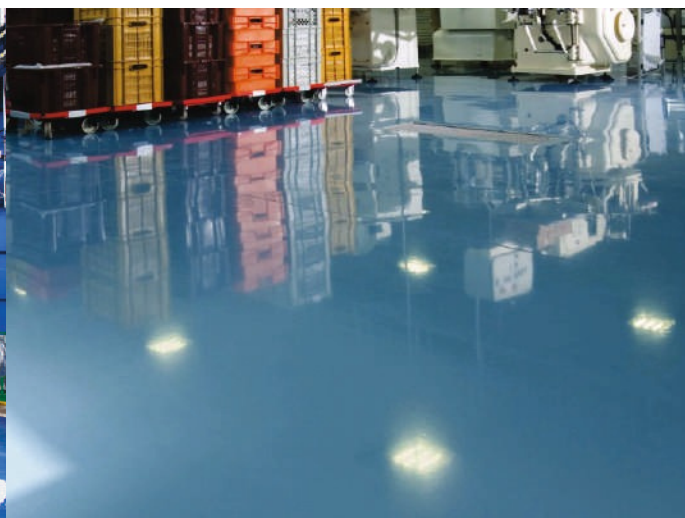

Concrete Densifiers

Wall Coating & Coving

Anti Corrosive Coating

Epoxy Tile Grout

Industrial & Commercial Flooring

Epoxy Flooring

PU Coating

PU Self Level Flooring

PU Concrete

EPU Flooring

Epoxy & PU – Water Borne Flooring

Chemical Resistance Flooring – Novolac Resins

ESD/ Antistatic Epoxy Flooring

Acrylic Emulsion Coating

Epoxy cementitious flooring

Our comprehensive range of industrial Epoxy flooring Coating products are designed for withstanding the harsh conditions that are common to heavy duty environments.

Benefits:

- ✖ Excellent gloss
- ✖ Hard-wearing
- ✖ Abrasion resistant
- ✖ Solvent free; low odour
- ✖ Attractive, brightens up dull
Factories and warehouses
- ✖ Seamless & hygienic finish

PU Coating

Jemkon is engaged in offering superior quality & wide range of PU Floor Coating Service for indoor as well as outdoor applications .

Benefits:

- ✖ Excellent abrasion resistant
- ✖ Chemical resistant
- ✖ Thin coat, economical
- ✖ Fast return to service
- ✖ Semi gloss & matt finish

PU Self-Level Flooring

Jemkon's vast range of PU self-level floorings are widely accepted in almost all kinds of industrial segments, which are known for their flexo-hard properties with an appealing finish.

Benefits:

- ✖ Excellent flexibility as compared to regular epoxy
- ✖ Excellent Abrasion resistant
- ✖ Very good Self levelling properties
- ✖ Excellent adhesion

EPU Flooring

Jemkon's EPU flooring is the hybrid technology which blends the advantages of both epoxy & PU for the most challenging industrial conditions.

Benefits:

- ✖ High gloss
- ✖ Good abrasion resistant
- ✖ Hard wearing resistant
- ✖ Good flexibility

Epoxy & PU – Water Borne Flooring

Jemkon's combination of high-performance waterborne resins and hardeners, with fit-for-purpose additives and co-solvents, gives clients the opportunity to get the highest performance you can expect from epoxy & PU and still adhere to environmental regulations at the same total cost.

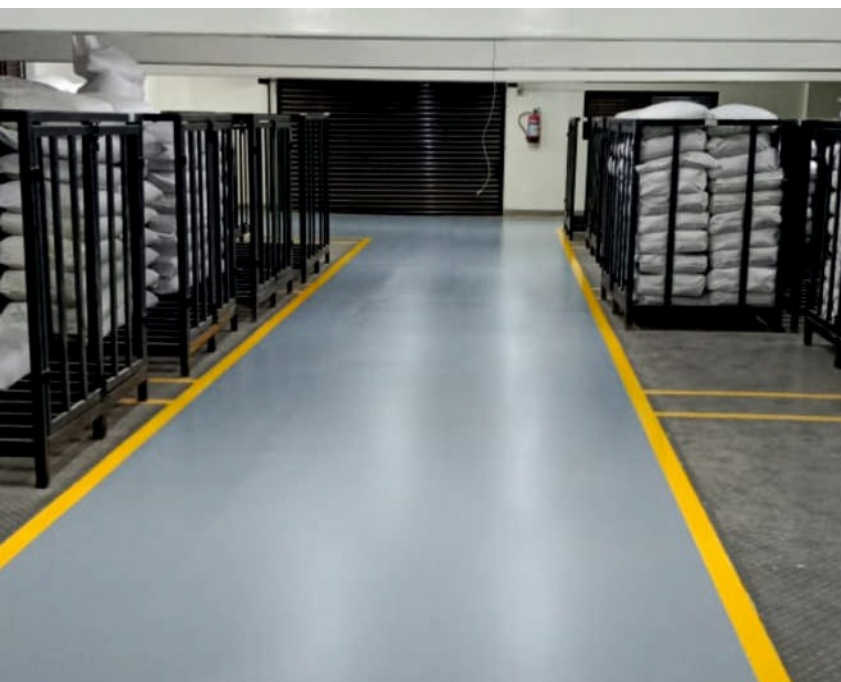

Benefits:

- ✖ Ultra low VOC
- ✖ Very low odor
- ✖ Environment friendly
- ✖ Fast dry and re-coat
- ✖ Balanced overall Performance properties

PU Concrete (Tuffkrete)

PU Concrete (Tuffkrete) is a combination of synthetic resins (Polyurethane) and mixture of carefully selected aggregates, mineral and filler combinations (Concrete). PU concrete floors are casted in-situ without the need of any bonding agents. These resinous material combined with concrete, filler and additive is applied in liquid form and bonds directly very well with the base concrete eliminating the chances of any peel off easily. The breathable properties of PU concrete makes the system to sustain in moisture sensitive areas upto 7%, where regular epoxy flooring fails due to blisters and bubbles.

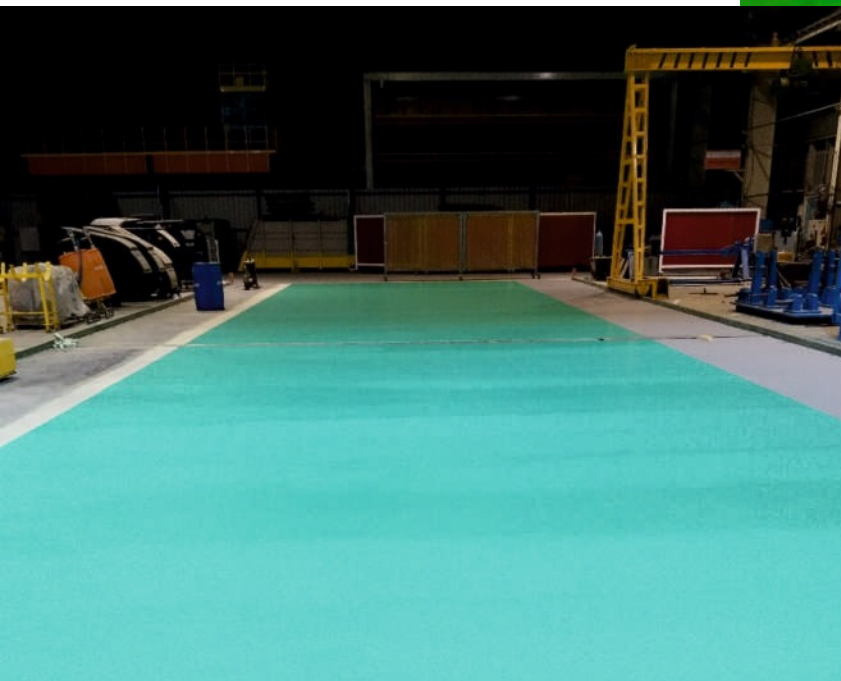

Benefits:

- ✘ Excellent abrasion resistant
- ✘ Excellent chemical resistant
- ✘ Ability to handle extreme hot & cold temperature -40 degree to +130 degree
- ✘ Steam Cleaning resistance.

Benefits:

- ✘ Excellent Adhesion to concrete substrate
- ✘ Anti-fungal and Anti-bacterial
- ✘ Few layers as compared to epoxy
- ✘ Breathable properties like concrete
- ✘ Water based, low VOC

Chemical Resistance Flooring – Novolac Resins

Jemkon's Speciality product list comprises of Novolac Resins, these when compared with normal epoxy or PU floors are far superior in terms of chemical resistance properties. Jemkon's range of Novolac Resins are widely used for chemical resistance floorings, mortars, coatings & linings.

Benefits:

- ✖ Very high chemical resistance
- ✖ Hard wearing resistance
- ✖ Good abrasion resistant
- ✖ Excellent compression & tensile strength

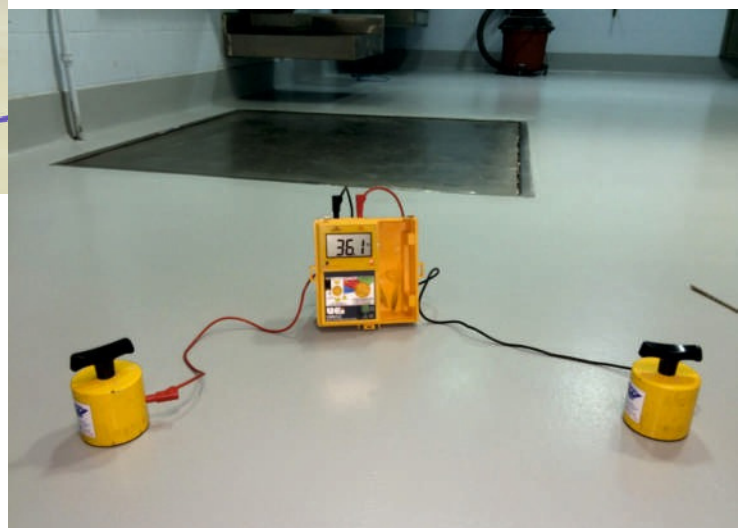

ESD/ Antistatic Epoxy Flooring

Our range of antistatic flooring products has successfully proven to prevent harmful electrical charge build-up from destroying sensitive components by dissipating the charge safely to the ground. Jemkon makes available both conductive and static-dissipative flooring systems.

Benefits:

- ✖ Electrostatically conductive
- ✖ High chemical resistant
- ✖ Hard wearing resistance
- ✖ Good abrasion resistant

Acrylic Emulsion Coating

Jemkon brings you a special acrylic emulsion floor paint to beautify your interior as well as exterior floors. The paint not only provides an aesthetic glossy finish, but is also resistant to abrasion from human and vehicular traffic, sun, rain and fungal attack.

Benefits:

- ✕ Economical as compared to epoxy or PU flooring
- ✕ Single component easy to use
- ✕ Interior as well as exterior use
- ✕ Good abrasion resistance
- ✕ Washable

Epoxy Cementitious Flooring

Jemkon's range of cementitious flooring can be applied over green / damp concrete where regular epoxy or PU fails.

Benefits:

- ✕ Prevents osmotic blistering
- ✕ Economical
- ✕ Good self levelling properties
- ✕ Thermal expansion properties similar to concrete
- ✕ Good compression & tensile strength

Concrete

Jemkon offers economical range of epoxy & cementitious based concrete repair material for potholes, cracks & damaged surfaces.

Benefits:

- ✖ Excellent bonding with old surface
- ✖ Fast cure
- ✖ Compressive strength better than normal concrete
- ✖ Thick to thin layer application
- ✖ Easy to apply

Dust Proof Sealers

Jemkon's thousands of customers, some owning millions of square feet of protected sealers floors themselves, are enjoying the benefits of dust-free, easy-to-maintain concrete floors. You'll find Our sealers in all types of businesses, including warehouses, distribution centers, food processing plants, bakeries, factories, pharmaceutical, electronics manufacturing, automotive repair facilities and retail stores.

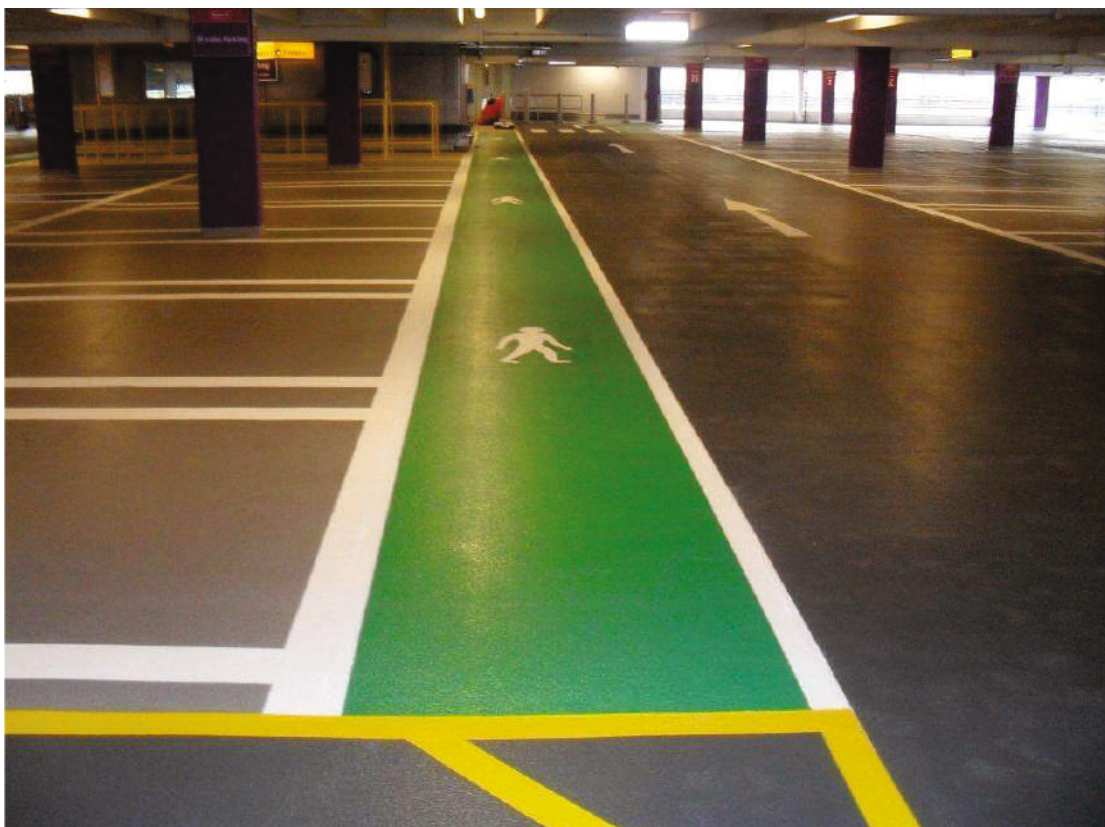

Benefits:

- ✖ Economical
- ✖ Flexible options of epoxy, PU solvent Free & waterborne
- ✖ Anti skid
- ✖ Excellent abrasion resistance
- ✖ High flexibility

Jemkon's car park protection systems have been designed to meet contemporary requirements for car park environments, helping to enhance the aesthetic appearance, improve light reflectivity, reduce noise from tyre squeal and prevent water ingress into any car parking structure.

Benefits:

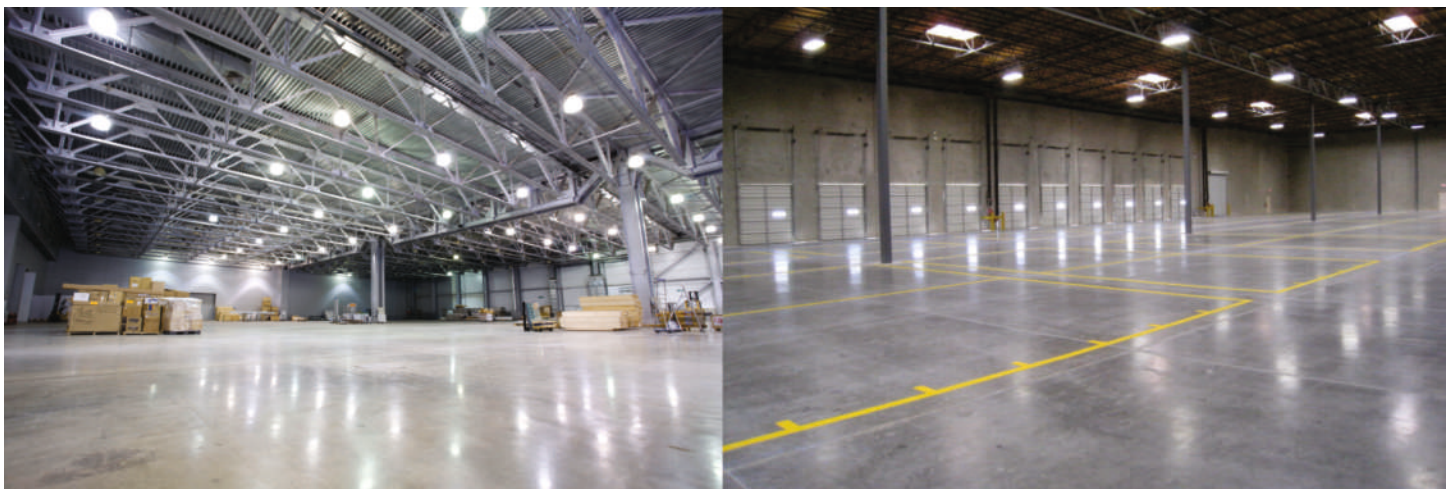

- ✕ Excellent aesthetic value
- ✕ Anti skid
- ✕ UV resistant
- ✕ Excellent abrasion resistance
- ✕ High flexibility
- ✕ Variety of colour options

Jemkon's concrete densifier "Jemhard 1010" penetrates into the concrete thereby protecting, preserving & strengthening them.

Benefits:

- ✖ Excellent dustproofing
- ✖ Excellent abrasion resistance
- ✖ Excellent gloss
- ✖ Excellent hardening

Jemkon's PUD & Epoxy hybrid range of Wall Coating Products are suitable for both interior and exterior application & are more durable as compared to conventional plastic emulsion paints. Our wall coatings are highly popular among the clients and are used in Food Processing Plants, Clean rooms of Electronic plant & pharmaceutical industry, Hospitals & Laboratories, Schools & Kindergarten, Kitchens & Bathrooms, Exterior Walls and Residential Premises.

Benefits:

- ❖ Anti fungal & anti bacterial
- ❖ Good scratch resistant
- ❖ Economical
- ❖ Easy to apply
- ❖ Can be tinted to any desired colour
- ❖ Waterproofing properties

Anti-C

Jemkon range of anti corrosive coating is suitable for use as an excellent finish coat on a Variety of substrates such as steel, galvanised steel, Aluminum, FRP, etc for chemical plants, fertilizer units, refineries situated in coastal areas exposed to severe saline atmosphere.

Benefits:

- ✕ Good resistance to marine & chemical environments
- ✕ Resistance to splash & spillage of mild chemicals, acids & alkalis
- ✕ Excellent adhesion on a properly cleaned surface
- ✕ Fast dry & good hardness
- ✕ Very good colour and gloss retention

Epoxy Tile Grout

With exceptional flow, stability and strength characteristics, Jemkon Tile Grouts provide the best solution for high precision applications, combined with a wide range of cement and resin based anchoring systems. They are tested and outperform industry laid norms and standards.

Epoxy Grout Advantages

- ✕ Flowable
- ✕ Durable
- ✕ No Shrinkage
- ✕ No Segregation
- ✕ Strong
- ✕ Consistent
- ✕ Site Friendly
